Years	Name of concern	Location	Kind of work	
Present time	<u>7 1/2</u>	<u>Am. State Bank,</u>	<u>Porum,</u>	<u>Bank Management</u>

Previous First State Bank, Dustin, Okla. about 14 months; years 1919-20; Bank of Commerce, Sapulpa, now defunct - years 1920-1923; First National Bank, Coyle, 1923-1925. Mr. H. C. Hughes was president of Bank Commerce and is now Vice Pres. Am. National Bank, Sapulpa, Don't know whereabouts other officers.

15. State whether you have been employed at any time by a Federal Intermediate Credit Bank or the War Finance Corporation in the inspection or appraisal of livestock or other property for loan purposes, and if so, when and where: No.

16. Describe fully all the training or experience, whether in business for yourself or employed by others, that you consider qualifies you for performing services as a livestock inspector for loan purposes, giving the localities and States. In answering this question, state what experience, if any, you have had in reading brands:

Relative to question #16, would say, have been reared on farm having lived there about all my life until 21. We handled stock of all kinds and I naturally became more or less familiar with breeds, types, etc. My father was a veterinary and I picked up considerable knowledge from him. In the bank since, have had lots experience, have followed breeding and been attentive to livestock and fairs.

17. State whether you have been discharged from any position, and if so, when and why: no

18. Indicate by check marks in the proper spaces below the kinds of livestock that you are qualified to inspect for loan purposes:

	Range	Breeding stock	Feed lot and farm pasture (feeder)	Dairy
Cattle	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Sheep				

REMARKS: I know but little about sheep, my experience has been with cattle, hogs, and mules mostly. Since in the banking business have become very familiar with the dairy type and the beef type; also most of the better breeds of swine.

19. Set forth the facts or information that you think should enter into an inspection report on the kinds of livestock above indicated by you when inspected for loan purposes: I think the data necessary on the above type of stock in an inspection would depend entirely on the type of cattle or sheep being inspected, depending on what you were having them inspected for. (1), breeding stock, blood lines ancestry and the stamina etc; (2), Feed lot and farm pasture, selection as to type that are adaptable and considered good feeders; farm pasture - good rangers and hardy type. Dairy-attention should be centered I think on Dams, Sires, butter fat tests and history of the animal or ancestry, also note as to carriage and salability for in Dairying I think most people not good judges buy on pasture or carriage.

Additional Note: In looking over question No.19 as to data which should go into a report in making an inspection of a loan it occurred to me that there are some other things which should necessarily go into this which I failed to get in the space and will add the following which I think is most important: "The character and ability of the loan applicant should be considered and the thought in mind as to the possibility of applicant being in position to take care of said cattle with a nominal expense for overhead. Also as to the available pasture and feed with which to finish cattle if feeders and if dairy cattle the same would apply.

20. State the usual diseases and other conditions that affect the value of the kinds of livestock that you are qualified to inspect for loan purposes:

Incattle Black very much among young cattle specially where they have been thrown on pasture and started to fatten to suddenly I think; Abortion very much in Dairy cattle well as Tuberculosis which in dairy cattle tests should be made; then milk fever is very common with heavy milkers.

21. Give the names, occupations, and addresses of five persons, not of your immediate family, who have personal knowledge of your qualifications and who will answer questions regarding you. These persons should be among the classes described below. At least three of them should be in the territory in which you desire to inspect livestock for loan purposes.

- (a) Directors or responsible officers of banks or loan corporations.
- (b) Directors or responsible officers of livestock producers organizations.
- (c) Directors or responsible officers of stockyards' companies or livestock exchanges.
- (d) Business men, bankers preferred.
- (e) Leading stockmen.
